

AIR DISTRIBUTION THEORY, APPLICATION & BEST PRACTICES

LOCATION: PRICE TECHNICAL CENTER - CASA GRANDE, AZ

PROFESSIONAL DEVELOPMENT HOURS: 24

ARRIVAL DAY: MONDAY, APRIL 24, 2017

TRAINING DATES: APRIL 25-28, 2017

The Price Engineers Training (PET) will equip you with the tools and expertise to design successful spaces. Over 2,200 engineers have completed this industry renowned program, hosted in state-of-the-art facilities that allow you to engage with product displays and live system demonstrations.

Engineers that complete this program will leave with a superior understanding of foundational air distribution theory and the application of new technologies.

Due to limited availability, we prefer that participants are available to participate in entire four-day course. Please apply early to help secure a spot.

OUR FACILITY

Interactive Product Displays

Flow Visualization Room

Price Technical Center

LEARNING OBJECTIVES

HVAC FUNDAMENTALS:

- + Air Distribution
- + Acoustics
- + Comfort

TECHNOLOGY:

- + Displacement
- + Chilled Beams & Sails
- + Critical Environments
- + Noise Control
- + Terminals
- + Underfloor
- + Terminals with DOAS
